

# JEAN SUSOR

## FRONTEND DEVELOPER

### SUMMARY

I'm currently working freelance as a Web Developer. I can do backend using NodeJS but I am more comfortable working as Frontend Angular Developer. Previously, I always worked with a team so I'm already used to Git's Version Control. I am a team player and can communicate effectively.

As a Wordpress Administrator before, I know a website's best practices, SEO, design to enhance customer satisfaction and to high rank in Google.
